

Our Culture

Our Culture

Nicholas Ngumbi & Co., Advocates is an excellent choice for clients who need high quality legal advice and representation. Our practice of law is founded upon an unwavering commitment to a culture of excellence, a culture of high performance in provision of legal services in Kenya & East Africa. Our work ethic does not begin and end with the billable hour; lawyers go the extra mile to understand our clients' specific needs to ensure that our advice is pragmatic.

We employ a strategic and holistic approach to problem-solving. We treat every engagement and interaction with our clients as an opportunity to help them solve their needs and add value to their lives and businesses, not as just another legal assignment.

To enable us to incorporate international best practice in solving our clients needs, we have put in place effective attorney and e-library networks in New York, Washington, D.C., California, Pittsburgh, London, South Africa and across the East Africa region.

We have put in place an effective staff team so that our attorneys spend all the time concentrating on legal work.
